On the other hand you can use the Office Universal Control if you do not wish to use the mentioned one. The Office Universal Control supports in... v2.0 - Patching Error - Invalid major version error The versions you listed should be able to be patched. Please contact your vidcontrol support in case of issues. We need to use a patch to install vids. We want to update current version to v6.1. There is no XC32 specific patch available for v6.1 in the zip folder. Please provide the name and the link to the patch for v6.1 in this thread. Or provide a patch for the Universal Control Office. Please make sure that you are using the latest update when we try to download your patch. OK, I have extracted and edited v6. 82157476af
