About This Content

Columbus might not have been the first, but he was the most important. His voyages to the New World were quickly exploited by an ascendant Spanish Crown, leading that great Catholic kingdom to over a century of dominance at the center of European politics. The gold of the Aztecs and silver of Peru laid the foundations of a global empire that stretched from Mexico to Madrid to Manila. Relive those days of empire building from the Reconquista to the treasure fleets in **Europa Universalis IV: Golden Century**, a new immersion pack from Paradox Development Studios.

Features of Golden Century include:

- **Minority Expulsion:** Settle your distant colonies with homeland minorities, promoting greater cohesion at home, while adding more diversity to your subject nations.
- **Establish Orders:** Iberian nations can appoint Jesuit, Franciscan or Dominican clerics to govern their states to reduce unrest or ease conversion..
- **New Mission Trees:** New missions and objectives for the nations of Iberia and Northwest Africa, including Spain and Andalusia.
- **Pirate Republics:** Play as or combat against pirate nations in dangerous sea zones, with their own flavor and game style.
- **Flagships:** Appoint a Flagship to lead your navy, adding combat and trade power to your fleets.

-
- **Naval Barrage:** Use your ships to help besiege coastal forts by bombarding the walls.

Golden Century includes a Content Pack that includes:

- **New Iberian Army Units:** 20 unique infantry units for Granada/Andalucia, Navarra, Leon/Galicia, Salé and Pirates.
- **New Iberian Ship Models:** 17 new ship models for the Iberian nations (Portugal, Spain, Aragon, Navarra, Galicia, Leon, Andalucia and Granada.)
- **New Berber Ship Models:** 17 new ship models for Berber nations (Morocco, Tlemcen, Algiers, Tunis, Fezzan, Mzab, Touggourt, Djerid, Tripoli, Tafilalt, Sus, Fez, Salé.)
- **New Music:** 3 tracks of original music inspired by the discovery of the New World.

I'll be honest, I only got the DLC when half off simply for the music and the unit skins.

The "features" are not worth anything: the expanded mission trees should be a free feature since they are a core game mechanic, the flagship is flavor but that's all, the naval bombardment you'll never use and kicking out minorities is only fun for roleplaying but since it's limited to a handful of nations, it's worthless.. Lost my dutch campaign because spain has permanent claims on my land 6500 kilometers away in the netherlands for no discernible reason and went to war for it. If they didn't get the burgundian inheritance why the hell should they have claims on the lowlands? Every immersion pack just gives more power to the countries that are already extremely powerful (Spain, Britain, Russia) god help us all when they released a french immersion pack that gives them free permanent claims on the entire HRE and italy.. not bad for 5 bucks, not worth more than that.. Summed up in 1 song:

Do what you want, 'cause a pirate lives free,
YOU ARE A PIRATE!
Yar har, fiddle di dee,
Being a pirate is alright to be,
Do what you want 'cause a pirate lives free,
You are a pirate!
